

# The Harvard

*Twin Lodge Range*

*Bringing the  
outside in*

Stately-Albion's latest design aims at the core of the holiday experience. If you have a view this is the home for you. Built to residential specification in a range of sizes all Stately lodges may be enjoyed whatever the weather.

The essence of the Harvard is the breathtaking panoramic view provided by the unique design of this home. From the moment you step into the stylish modern lounge / diner you are drawn to the span of windows and the vista beyond. You

will be immediately awed by the vaulted ceilings and feeling of light and space this home provides.

A new range of materials and styles used in this home provide style and durability. Ceramic tiles in the style of wood plank provide a hard wearing surface from the dining area through the kitchen to the hallway. Painted wall finishes throughout the home give a simple and easy to maintain backdrop for the stunning feature walls to the lounge and master bedroom. A revolutionary laminate material provides a stylish and tough finish to the compact and functional kitchen. Indeed there are detailed appointments wherever you look in this home. The fully tiled bathroom and stylish en-suite, bedside lamps, usb charging sockets, provision for a wall-mounted tv. There is no compromise in this home.

The kitchen incorporates an induction hob for added safety whilst cooking and entertaining. A wine cooler provides additional sustenance for those hot summer days and evenings.

Freestanding oak furniture to the lounge and master bedroom provide both style and substance. However, you may decide to choose your own furnishings, the choice is yours. The aim of Stately is to enable you to create your perfect home.

The front of your new leisure lodge is almost all glass and incorporates French doors. Stylish curtains cloak the front when it is time for privacy. The home has a unique appearance and feel.

Seeing is believing. We believe that the Harvard represents something new and exciting in the luxury lodge market. Why not see for yourself?
